

Subject: Outcome Images of Our Students

The ideal graduates of ADA will be educated through curriculum built around a triad of rigorous major study, functional enablers and general education, provided with experiential learning opportunities through projects and trained to become high-impact graduates.

The outcome images of our students are, therefore:

1. Highly Intellectual Solution Providers
2. Close Collaborators
3. Effective Communicators
4. Ethical Citizens

Firstly, producing high impact graduates entails admitting the most qualified students that have potential to excel in academically rigorous curricula, developing these students into the country's core manpower with critical thinking, analytical and problem solving skills, and ultimately delivering these students to the job market in all sectors of economy – industry, government, research or academic institutions – to effectively apply their knowledge and skills.

Secondly, ADA aspires to produce 'high impact' graduates, rather than merely makers. High impact graduates are professionals, who are capable of applying their knowledge to solve problems and design processes requiring more sophisticated training and skills compared to makers whose main functions are carrying out specific tasks. For makers to become high impact professionals, it takes skills and knowledge build-up. The academic programs at ADA should adopt a project-based learning approach to prepare our students to become high impact graduates upon graduation.
