## **Introduction**

The Credit Transfer Manual has been developed to provide support to students who are planning to study at another international institution within exchange program and involved departments throughout the host university selection and credit transfer process. This manual contains extracts from ADA University Academic Catalogue, transfer process after completing the exchange program, comprehensive table reflecting credit & grade equivalency between ADA University and partner universities, academic summaries provided by partner universities regarding their grading and credit system.

### **ADA University Credit Hours & Grading System**

ADA University uses the European Credit Transfer and Accumulation System (ECTS) to define a semester credit hour. ECTS credits express the volume of learning based on defined learning outcomes and associated workload.

#### **Calculation of Credits**

- a. At ADA University, 1 contact hour consists of 37.5 minutes.
- b. Fall semester and Spring semester include 15 weeks of instruction, while Summer term consists of 6 weeks of instruction.
- c. At ADA University, 1 credit hour represents 25 minutes of class time and 95 minutes of further learning activities per week. This is equivalent to 6.25 hours of class time and 23.75 hours of further learning activities per semester (based on a 60-minute hour).
- d. 1 credit hour accordingly corresponds to a semester workload of 30 hours (based on a 60-minute hour).
- e. Most courses at ADA University award 6 credit hours. This is equivalent to 150 minutes of class time (= 4 contact hours) and 570 minutes of further learning activities per week and to 37.5 hours of class time (= 60 contact hours) and 142.5 hours of further learning activities per semester.

#### **Credit Hour Requirements**

- a. A typical Bachelor's degree program requires at least 240 credit hours to be earned by the student. This entails the successful completion of approximately 40 courses, depending on the respective degree program.
- b. A typical Master's degree program requires at least 90 credit hours to be earned by the student (including an Independent Study Project).

## Grading System

LETTER GRADE	GRADE POINTS	GRADE SCALE PERCENTAGE	GRADE NAME
A	4.00	94-100	Excellent
A-	3.67	90-93	
B+	3.33	87-89	Good
B	3.00	83-86	
B-	2.67	80-82	
C+	2.33	77-79	Satisfactory
C	2.00	73-76	
C-	1.67	70-72	
D+	1.33	67-69	Poor
D	1.00	60-66	
F	0.00	00-59	Fail -Academic
FX	0.00	00	Fail -Administrative
N	-	-	No grade or invalid grade submitted

**General Rules for the Transfer of Credit from Other Institutions**

- a. ADA University accepts transfer credits mainly for courses taught in English. Credits for courses taught in another language can only be transferred in exceptional cases and after prior approval by the Dean (or designee) of the School that serves as the administrative home of the student's degree program.
- b. Students may not receive graduate credit for any learning activity designated as solely undergraduate at the institution where the learning activity was completed.
- c. The acceptance of credit requested for transfer is subject to minimum grade requirements. These are applicable to each individual course for which the transfer of credit is requested. Grades are evaluated according to ADA University's grading scale. The conversion of grades is based on the *Credit Transfer Manual*.
- d. Approved transfer credit will be posted to the student's transcript. All transferred credits, courses and grades will be clearly marked as coming from another institution of higher education. Grades from approved transfer courses taken at another institution will not count towards a student's cumulative GPA at ADA University. Yet, approved transfer credit will count towards the total number of credits needed for graduation.

### **Studying at Partner Institution**

- a. Undergraduate and graduate students of ADA University may participate in an exchange program and thus take courses (these courses are required to be reflected in ADA University's Learning Agreement Form, which is to be completed in consultation with the student's Academic Advisor and confirmed by the Office of Admissions and Student Records) at another institution of higher education, provided that the institution of higher education is an international partner institution of ADA University.
- b. Students may study for one semester at another institution if they wish to transfer credits earned at that institution to ADA University. They may reapply for a second semester at an international partner institution, but they will not be able to transfer credits earned during that period. This may result in a delayed graduation date. Priority will be given to those students who have not yet taken part in an exchange program.
- c. Undergraduate students must have completed the first 60 credits of their respective degree program in residence and have a minimum of 2.50 cumulative GPA at the time of their application for an exchange program. In addition, students must be in residence during their final semester. Students are not permitted to study at another institution at that time.
- d. Graduate students must have completed the first 18 credits of their respective degree program in residence and have a minimum of 3.00 cumulative GPA at the time of their application for an exchange program. In addition, students must be in residence during their final semester. Students are not permitted to study at another institution at that time.

### **Transfer of Credit from Another Institution During Enrollment at ADA University**

- a. After their return to ADA University, and to transfer credits earned during their stay at another institution, students are required to meet with their Academic Advisor to complete the [\*Credit Transfer Form\*](#). They must provide the Academic Advisor with an official transcript from the institution at which the course(s) and credits proposed for transfer were completed and with a syllabus for each course for which the transfer of credit is requested.
- b. Students must submit the completed *Credit Transfer Form* and the official transcript from the host institution to the Office of Admissions and Student Records.
- c. Undergraduate students may transfer up to 30 credits from an international institution of higher education.

- d. Graduate students may transfer up to 18 credits from an international institution of higher education.
- e. Credits for courses will not be transferred if (after conversion to ADA University's grading scale) the grade of a course for which the transfer of credit is requested is below C for undergraduate students, or below B- for graduate students. Neither will such credits count towards the total number of credits required for graduation.
- f. The Office of Admissions and Student Records will update the student's transcript at ADA University based on the information submitted by the student and according to the regulations in effect.
- g. If a transferred course is major core and/or technical elective course, it will be recorded with the course code of its equivalent at ADA University. If a transferred course is a free elective course, the course subject will be recorded as EXCH and the course number will be indicated as 2xxx, 3xxx, 4xxx for undergraduate students, 5xxx, 6xxx for graduate students in accordance with their study year at ADA University. Grades for transfer courses will appear as TA, TA-, TB+, TB, TB-, TC+, and TC on the ADA University transcript.
- h. Retaking a course at another institution is only possible if the first attempt at ADA University was assigned a Withdrawal (W).

### AUSTRIA

#### University of Salzburg

##### Academic Notes

The bachelor's program comprises 6 semesters of study and requires 180 ECTS credits for completion. The degree program consists of 126 ECTS credits of mandatory courses, 12 ECTS credits of internship work, 6 ECTS credits are apportioned to the bachelor's thesis and 36 ECTS credits to free electives. The master's program comprises 120 ECTS credits and requires 4 semesters of study.

One ECTS credit equals 25 hours of academic work.

1 full academic year = 60 credits

1 semester = 30 credits

1 term/trimester = 20 credits

### BELARUS

#### Belarusian Trade and Economics University of Consumer Cooperatives (BTEU)

##### Academic Notes

In the Republic of Belarus, system of credits is used, and system of academic hours can be used as well. One semester lasts from 16 to 18 weeks. Duration of academic hour is 40–45 minutes.

The value of one credit corresponds to 36–40 academic hours.

Upon duration of academic hour 40 minutes, credit is 24–26.7 of astronomical hours, upon duration of academic hour 45 minutes, credit is 27–30 astronomical hours.

The number of credits in mastering content of educational programs of higher education in a full-time (daytime) form of education should be equal to 60 credits per one academic year.

##### Grading System

Grade	Description
-------	-------------

10	ability to freely navigate theories, concepts and trends in an academic discipline studied and give their analytical assessment, to use scientific achievements of other disciplines; creative independent work in practical and laboratory classes, active creative participation in group discussions, high level of culture in completing assignments.
9	ability to navigate theories, concepts and trends in an academic discipline studied and give their analytical assessment; systematic, active independent work in practical and laboratory classes, creative participation in group discussions, high level of culture in completing assignments.
8	ability to navigate theories, concepts and trends in an academic discipline studied and give their analytical assessment; active independent work in practical and laboratory classes, systematic participation in group discussions, a high level of culture in completing assignments.
7	mastering basic and additional literature recommended by the curriculum of a higher education institution in an academic discipline; ability to navigate main theories, concepts and trends in an academic discipline studied and give their analytical assessment; independent work in practical and laboratory classes, participation in group discussions, high level of culture in completing assignments.
6	ability to independently apply standard solutions within the framework of the curriculum of a higher education institution in an academic discipline; mastering basic literature recommended by the educational curriculum of a higher education institution in an academic discipline; ability to navigate basic theories, concepts and directions in a discipline studied and give their comparative assessment; active independent work in practical and laboratory classes, periodic participation in group discussions, high level of culture in completing assignments.
5	sufficient knowledge within the scope of the curriculum of a higher education institution in an academic discipline; mastering basic literature recommended by the curriculum of a higher education institution in an academic discipline; ability to navigate basic theories, concepts and directions in an academic discipline studied and give their comparative assessment; independent work in practical and laboratory classes, fragmented participation in group discussions, a sufficient level of culture in completing assignments.
4	ability to solve standard (typical) problems under guidance of a teacher; ability to navigate basic theories, concepts and trends in an academic discipline studied and evaluate them; work under guidance of a teacher in practical and laboratory classes, acceptable level of culture in completing assignments.
3	poor knowledge of tools of an academic discipline, incompetence in solving standard (typical) problems; inability to navigate basic theories, concepts and directions of an academic discipline studied; passivity in practical and laboratory classes, low level of culture in completing assignments.
2	fragmented knowledge within the educational standard of higher education; knowledge of individual literary sources recommended by the curriculum of a higher education institution in an academic discipline; inability to use scientific terminology of an academic discipline, presentation of answers to questions with gross logical errors; passivity in practical and laboratory classes, low level of culture in completing assignments.
1	lack of knowledge and (competencies) within the educational standard of higher education, refusal to answer, absence during certification without reason.

**BRAZIL****Universidade Regional de Blumenau (FURB)****Academic Notes**

ECTS is a Credit System focused on learning, based on the student workload (class and extra class studies), whereas FURB credit system focuses only on teaching in the classroom. Study hours extra classes are not counted on the final course hours. For comparison, in numbers, 1 ECTS credit represents about thirty (30) hours (class and extra-class studies) as 1 FURB credit corresponds to eighteen (18) hours (only teaching class hours). Considering that each teaching class hour demands one hour and a half (1 ½) hours of extra-class studies, we may assume that 18 (eighteen) teaching class hours plus twenty-seven (27) hours of extra-class studies amount to 45 (forty-five) working hours, that is, 1.5 ECTS, thus we apply the following.

FURB credit	Course Hours (C.H) (teaching class)	ECTS workload hours (class and extra-class)	FURB Credit converted to ECTS
1	18	45	1.5
2	36	90	3
3	54	135	4.5

## BULGARIA

### American University in Bulgaria

#### Academic Notes

AUBG applies the following formula to convert ECTS (European Credit Transfer and Accumulation System) credits to AUBG credits: 2 ECTS credits = 1 AUBG credit. Transferred ECTS credits are recorded on the student transcript precisely, including fractions (i.e., half-credits).

Unless otherwise noted, all course work completed at the University is under a semester system approximately 15 weeks in length. In ECTS credits, 60 credits represent the workload of an academic year of study and 30 credits of a semester.

Bachelor's Degree average semester course load 15 AUBG credits (30 ECTS);

Master's Degree average semester course load 12 AUBG credits (24 ECTS).

#### Grading System

F	Fail		
U	Unsatisfactory performance in a pass/fail course in which any grade lower than a C- is considered unsatisfactory		
X	Student dismissed from class for failure to adhere to written rules; this grade is usually assigned when a student is dismissed from a course for academic dishonesty		

### “Angel Kanchev” the University of Ruse

#### Academic Notes

The European Credit Transfer and Accumulation System (ECTS) was introduced in Ruse University in the beginning of 2005/2006 academic year. The underlying condition in the

methodology applied is that the full-time course of study in a given academic subject is determined as the sum total of contact hours, self-study hours per semester, hours allotted to work on the individual student assignment and self-study hours for exam preparation. For all academic subjects in a given semester, this time equals 800 hours. Each academic subject from the curriculum is awarded a credit equivalent depending on the full-time student workload in it. For a total of 800-hour workload and 30-credit-hour equivalent per semester, the academic credits for each subject are determined by dividing the full-time workload per subject by 26,67 hours, which correspond to one academic credit for Ruse University.

### Grading System

5 (very good)	B
4 (good)	C

## Varna Free University

### Academic Notes

Varna Free University uses the European Credit Transfer and Accumulation System (ECTS) to define a semester credit hour. One credit equals 30 hours of student workload, which includes 10 contact hours (lectures and seminars) and 20 hours of independent work.

60 ECTS credits are attached to the workload of a fulltime year of formal learning (academic year) and the associated learning outcomes. In most cases, student workload ranges from 1,500 to 1,800 hours for an academic year, whereby one credit corresponds to 25 to 30 hours of work.

A typical bachelor's degree requires at least 240 credit hours to be earned by the student. This roughly translates into 40 courses, depending on the student's program of study. Normal full-time registration is usually 30 credit hours per semester or 60 credit hours per academic year.

A typical master's program requires at least 60 credit hours. This roughly translates into 12 courses and a capstone or master thesis experience, depending on the student's program of study.

### Grading System

## CANADA

### University of Waterloo

#### Academic Notes

At the University of Waterloo two terms of study are equivalent to a full academic year, although they operate on a trimester system with fall, winter, and spring terms.

The full-time course load is 5 courses per term (equivalent to 2.5 credits) with a minimum of 3 courses per term (equivalent to 1.5 credits). Most of the courses are assessed as a credit of 0.5 and are approximately 39 teaching hours per term. One undergraduate course at 0.5 credits is equivalent to 6 European Credit Transfer and Accumulation System (ECTS).

In addition to maintaining full-time status in undergraduate level courses, a student may enroll in a maximum of one graduate course during their exchange at Waterloo. For students participating in an exchange longer than one term, a maximum of two graduate courses may be allowed.

**CHINA****Beijing Normal University & Hong Kong Baptist University United International College****Academic Notes**

The UIC uses the local credit system. The equivalence of ECTS to the UIC Unit: 2 ECTS = 1 UIC unit.

The number of units assigned to a course is indicative of the contact time with a teacher and/or the study time associated with that course on a weekly basis over a period of one semester. In general, a single unit represents attendance once a week throughout the semester at a lecture lasting 50 minutes, or two 50-minute sessions per week of field studies or laboratory classes. The minimum study load for a full-time student is 15 units per semester (except for the final year students)

## East China Normal University

### Academic Notes

One Credit consists of 18 class hours, whereas one class hour equals 45 minutes. Credits may differ from course to course. For the Standard Chinese language program, one exchange student usually takes three or four courses per semester and each course may account for 4 or 8 credits according to different arrangements for different language levels. For Global China Program (English-taught courses), one exchange student could take the Chinese course that account for 6 credits and at the meantime, he/she could take up to four English-taught courses (3 credits for each).

### Grading System

For exchange students (in terms of the English-taught GCP program and Chinese Language programs) 100% grading system is applied:

A	(90-100)	Outstanding
B	(80-89)	Good
C	(70-79)	Satisfactory
D	(60-69)	Improvements needed
E	(0-59)	Fail

## COLOMBIA

### Universidad Externado de Colombia

### Academic Notes

According to Colombian law, a credit is “the unit of measurement of the student's academic work that indicates the effort to be made to achieve the expected learning results. One credit is equivalent to forty-eight (48) hours for an academic period.” These 48 hours are the total

amount of in-class hours plus homework. The ratio is approximately 3 homework hours per 1 class hour. Most courses are awarded 2-3 credits. This represents 96 to 144 hours of class and homework.

One academic semester is equivalent to an estimate of 16 weeks of class plus 1 week of final exams.

Credit load in Universidad Externado degrees:

PhD program - between 70 to 82 credits.

Master's degree program - 39 to 65. The average is 50 credits per program.

Bachelor's degree program - 140 to 179. It varies according to the number of semesters in each program.

### Grading System

5	Outstanding

## CROATIA

### The University of Split

#### Academic Notes

Each course unit consists of 15 teaching weeks per semester. Weekly schedule for teaching the course units according to the number of ECTS credits:

- 5 or 6 ECTS credits equals 2 hours of theory and 2 hours of practical classes;
- 4 ECTS equals 2 hours of theory and 1 hour of practical classes;
- 4 ECTS credits for foreign languages equals 1 hour of theory and 2 hours of practical classes;
- 2 or 3 ECTS credits equals 1 hour of theory and 1 hour of practical.

Total student workload for 1 ECTS is 30 hours.

In some courses there are assignments such as monthly tests, short class tests, homework, papers, project, and teamwork, etc. Certain percentage of attendance of lectures (theory classes) and exercises (practical classes) is prerequisite for taking the exam (% varies from course to course).

There are preliminary written exams (kolokviji) held during the semester or exams (ispiti) held at the end of each semester during four-week examination sessions. Exam consists of a written and oral examination.

#### Grading System

5	Excellent	Outstanding performance
4	Very good	Above-average standard but with some errors
3	Good	Generally good work with a number of notable errors
2	Sufficient	Performance meets the minimum criteria
1	Fail	More work required before credit can be awarded

## University of Zagreb

### Academic Notes

University of Zagreb uses the European Credit Transfer and Accumulation System (ECTS). One ECTS credit is equivalent of approximately 30 working hours. 60 ECTS credits represent the workload of a year study, 30 ECTS credits a semester.

University undergraduate programs – first cycle normally take three years in which students are required to earn 180 ECTS credits. A minority of undergraduate university programs in Croatia are offered as four-year programs in which students are required to earn 240 ECTS credits.

University graduate programs – second cycle normally take two years in which students are required to earn 120 ECTS credits.

## ESTONIA

### Tallinn University of Technology

#### Academic Notes

University studies shall be carried out in accordance with study programs. Since 1 September 2009 the volume of studies is measured in European credits (hereinafter ECTS credits). One ECTS credit corresponds to 26 hours of study by a student.

A study program is a document which sets out the objectives of the studies conducted, including the expected learning outcomes, the nominal duration and volume of studies, the language of instruction, the list, volume and short descriptions of the courses, the options and conditions for selecting subjects, main specialties and the conditions for the completion of studies. When drawing up study programs, it has been assumed that a student acquires 60 ECTS credits, which corresponds to 1560 hours of study by a student.

Academic studies take place at three levels:

- bachelor's studies, workload 180 ECTS credits, nominal duration of studies 3 years
- master's studies, workload 120 ECTS credits, nominal duration of studies 2 years
- doctoral studies, workload 240 ECTS credits, nominal duration of studies 4 year

#### Grading System

A (5)	Excellent	Outstanding and particularly profound achievement of learning outcomes, along with creativity and consummate proficiency in applying skills and knowledge
-------	-----------	---

B (4)	Very good	Very good achievement of learning outcomes, along with proficiency in applying skills and knowledge in a targeted and creative manner. Some details of knowledge and skills may exhibit errors which are neither substantive nor serious
C (3)	Good	Good achievement of learning outcomes, along with proficiency in applying skills and knowledge in a relevant manner. A certain imprecision and uncertainty are apparent in the depth and detail of knowledge and skills
D (2)	Satisfactory	Sufficient achievement of learning outcomes, along with application of knowledge and skills in a typical manner; in atypical situations both, uncertainty as well as lack of knowledge and skills are apparent
E (1)	Poor	Minimum acceptable achievement of the most important learning outcomes along with limited application of knowledge and skills in typical situations; in atypical situations both, considerable uncertainty as well as lack of knowledge and skills are apparent
F (0)	Failed	Achievement in knowledge and skills below the minimum standard

### University of Tartu

#### Academic Notes

The system of credits in use, European Credit Transfer and Accumulation System (ECTS), is a cumulative calculation of credit points based on the workload of a student. One credit point corresponds to 26 hours of studies (lectures, seminars, practice, homework or independent work, assessment of learning outcomes) performed by a student.

In full-time studies, 75-100% of the total of the courses specified in the curriculum must be completed each year:

at least 45 ECTS by the end of the first year;  
at least 90 ECTS by the end of the second year;  
at least 135 ECTS by the end of the third year.

Exchange students:

At least 15 ECTS per semester.

#### Grading System

At the University of Tartu both differentiated and non-differentiated assessment of the learning outcomes (described for courses) are being used.

Differentiated assessment:

A	Excellent
B	Very good
C	Good
D	Satisfactory
E	Poor
F	Fail

In the case of non-differentiated assessment of the learning outcomes students may be given pass/fail grades.

## IESEG School of Management

## Academic Notes

IESEG School of Management uses ECTS. The number of contact hours varies from the format and the level of the course. There are extensive (semester long) and intensive (weeklong) courses and seminars (3 days). Therefore, students usually have to attend from 8 to 13 courses per semester to get 30 ECTS. A semester is 13/14 weeks. Intensive courses (16 hrs in class) are 2 ECTS.

1 ECTS credit is equivalent to twenty-five hours of work (including contact hours).

30 ECTS per semester is the regular workload for bachelor and master's degree programs.

A typical bachelor's degree program requires 180 credit hours (3 years), while a typical master's degree requires 120 ECTS (2 years).

## Grading System:

### **Kutaisi International University**

#### **Academic Notes**

Kutaisi International University (KIU), as a part of Georgian Higher Education System, uses the European Credit Transfer and Accumulation System (ECTS) system. 1 ECTS credit at KIU is equal to 30 study hours. At KIU there are two study semesters: Fall and Spring. Generally, one study semester includes 15 weeks of instruction. Generally, one study course at KIU is worth 6 ECTS credits or a multiply of 3 ECTS credits (3/9/12 ECTS credits). Contact hours (class time) for the courses worth 6 ECTS credits at KIU typically are 4 contact hours per week, i.e., 60 contact hours per semester. 1 contact (academic) hour at KIU In relation to astronomical hours is 50 minutes of class time.

A typical Undergraduate (bachelor's) Degree Programs at KIU requires at least 240 ECTS credits to be earned by the student (4 years full-time). Normal full-time registration is usually 30 ECTS credits per semester or 60 ECTS credits per academic year.

A typical master's program at KIU requires at least 120 ECTS credits including research thesis. Normal full-time registration is usually 30 ECTS credits per semester or 60 ECTS credits per academic year.

## GREECE

### University of West Attica

#### Academic Notes

University of West Attica (UniWA) uses the European Credit Transfer and Accumulation System (ECTS). ECTS credits express the volume of learning based on defined learning outcomes and associated workload.

At UniWA, one ECTS credit point equals to 25-27 working (credit) hours. Workload is an estimation of the time an individual typically needs to complete all learning activities such as lectures, seminars, projects, practical work, internship, and individual study required to achieve the defined learning outcomes in formal learning environments.

Typically, one year corresponds to 60 ECTS-credits (30 ECTS per semester). A 4-year bachelor's program has 240 ECTS-credits; a 2-year Master's program usually has 120 ECTS-credits, etc.

Fall and Spring Semesters include 13 weeks of classes each.

## HUNGARY

### Budapest Metropolitan University

#### Academic Notes

Metropolitan degrees are internationally recognized and accredited. The educational system in Hungary is multilevel, they follow the standards of the Bologna process and the ECTS credit system. METU is also state recognized and accredited by the Hungarian Education authority and the Hungarian Accreditation Committee.

The workload of students in higher education in Hungary is expressed in terms of ECTS credits. ECTS, the European Credit Transfer System, is the most widely known credit transfer and accumulation system in Europe.

In ECTS, 60 credits represent one year of study (in terms of workload); normally 30 credits are given for six months (a semester). Each ECTS credit represents 28 hours of work.

## Eotvos Lorand University

### Academic Notes

The Hungarian academic credit system following the Hungarian law is an ECTS-compatible system. The calculation of the credits is based on the number of working hours of the students (one credit is 30 student working hours, on average).

1 full academic year = 60 credits

1 semester = 30 credits

The first higher education degree is the bachelor's degree (alapfokozat) along with a professional qualification. To complete a bachelor's program, it is required to collect 180-240 credits. The length of the program is 6-8 semesters.

The second higher education degree is the master's degree (mesterfokozat) along with a professional qualification. The master's program is built on a bachelor's program; i.e., you need to have a bachelor's degree to start a master's program. To complete a master's program, it is required to gain 60-120 credits during your studies. The length of the program is 2-4 semesters.

## National University of Public Service (NUPS)

### Academic Notes

The obligatory use of the ECTS compatible credit system was introduced in September 2003, but several higher education institutions have already been using it since the middle of the 1990s. According to the governmental decree on the introduction of the credit system one credit corresponds to 30 hours of student workload. The minimum number of credits for a

college-level degree is 180, for a university-level degree is 240, for a further specialization degree is 60 while for the doctoral degree it is 180

Fall and Spring Semesters include 12 weeks of instruction and 3 weeks of training. Class time is 45 minutes. Semester credit hours for bachelor programs is usually 30 credit hours (max. 33 credit hours).

### University of Debrecen

#### Academic Notes

One credit stands for 30 student academic working hours. On average, the completion of an academic year equals 60 credits, and the workload for one semester in the curriculum corresponds to 30 credits.

The Bologna system was introduced at the University of Debrecen in 2006. Since then the former single-cycle 5-year training structure has been gradually replaced by the 3(3,5)+2 years (bachelor+master) system. The changes did not affect medical, dental, pharmaceutical and legal trainings, which take 6 and 5 years to complete, respectively.

Students at the Faculty of Economics and Business at the BSc level are usually required to complete 210 ECTS credits during a 3,5-year program (including the last semester that is an obligatory internship with an outside public or private organization in Hungary or abroad), and 120 ECTS credits at the MSc level during a 2-year training. Certain programs (e.g. teacher training) require an additional semester of practical training or internship.

The Faculty of Economics and business runs its programs requiring 27-33 credits per semester (14 weeks) with 240-310 classes totally. One class is 50 minutes.

The academic year consists of two semesters: autumn (September–January) and spring (February–June). Both semesters include a 15-week long study period, usually with one week of school break in the middle of the term, and a 6-week long exam session.

### Grading System

### Ca' Foscari University of Venice

#### Academic Notes

Ca' Foscari University of Venice endorses the principles of the ECTS (European Credit

Transfer System) and has arranged a university regulation, based on the full academic recognition of the educational activities carried out by students during their international mobility period.

Ca' Foscari University, in agreement with the principles that rule the ECTS system, has recognised the equivalence 1 CFU = 1 ECTS.

1 ECTS is equal to 25 hours of study.

For incoming exchange students there is no limit to the number of credits to be taken at Ca' Foscari University. Students register to courses based on their study plan and requirements of the sending institution.

### Grading System

The grading system is based on the percentage distribution of grades, according to groups of homogeneous degree programs (classi di laurea). In the transition from one system to the other, the traditional system (A, B, C, D, E) has been rearranged into groups of degree programs (classi di laurea). The grading system ranges between 18-30L.

## Luiss Guido Carli University

### Academic Notes

Luiss is one of the first universities in Europe to use the ECTS system.

### Grading System

Individual courses are graded on a scale of 18/30. Exceptional students may be awarded 30 cum laude (30 with honors).

The minimum passing grade is 18/30. Grades below 18 are considered to be failing grades and are not registered.

Grade	% of students passing the exam	Luiss University
A/A+	The best 10% of students	30-30L

## **Turin Polytechnic University**

### Academic Notes

One ECTS credit is equivalent to one Credito Formativo Universitario (CFU). At Politecnico, one CFU (or one ECTS) corresponds to 25 hours of lectures, practical work, seminars, tutorials, fieldwork, individual study and examinations or other assessment activities (50% should be individual learning or other individual educational and training activities).. The average workload for a full-time student is conventionally set at 60 credits per academic year.

### Grading System

In the Italian University system grades of single exams are expressed as fractions of 30. The maximum grade is 30, the lowest is 18. Exceptionally brilliant exams are graded as 30 “con lode” (cum laude) and marked 30-L. Failed marks (<18/30) are not recorded in the Transcript of Records.

## **University of Bologna**

### Academic Notes

“Bologna process” is applied at the University of Bologna. Degree courses are usually structured in credits. 1 CFU = credit = 1 ECTS corresponds to 25 working hours (teaching, independent study, examinations, tutorials). The average workload of a full time student is conventionally fixed at 60 credit per year.

### Grading System

The ECTS scale is built according to the following rule:

A	The best 10% of students
B	The next 25 % of students
C	The next 30 % of students
D	The next 25 % of students
E	The final 10% of students

## University of Siena

### Academic Notes

All study programs at UNISI are measured in terms of ECTS credits. The credits represent the total student workload (class time, individual study, exam preparation, practical work etc.) and one credit is equivalent to 25 hours.

A full-time one-year study program amounts to 60 credits (30 credits per semester)

### Grading System

Examinations are graded according to a scale ranging from 0 to 30, with 18 considered the passing mark. A "cum laude" may be added to the highest grade (30; 30 e lode) as a mention of special distinction.

## University of Trento

### Academic Notes

Since 2001 the University of Trento has been using the European Credit Transfer and Accumulation System (ECTS). ECTS is based on the convention that 60 credits measure the workload of a full-time student during one academic year. A university credit point corresponds to 25 hours of work per student, time for personal study included.

On the basis of ECTS Credits:

1 full academic year = 60 credits

1 semester = 30 credits

1 term/trimester = 20 credits

Total credit requirement:

Bachelor's degree – 3 years - 180 credits

Master's degree – 2 years – 120 credits

### Grading System

### **Almaty University of Power Engineering and Telecommunications named after Gumarbek Daukeyev**

#### Academic Notes

Energo University (AUPET) uses the ECTS to define a semester credit. At Energo University 1 credit corresponds to 30 hours of work in a semester.

Fall and Spring Semesters include 15 weeks of instruction, while Summer Term includes 6 weeks of instruction.

Most courses are awarded 5 credits, from which 3 hours/classes per week (50 minutes each class) students spend in a classroom with the instructor and 2 hours are assigned for individual work under supervision of the instructor. This represents 900 minutes of scheduled class time per week and a total of 225 hours of class time over a semester.

A typical bachelor's degree Program of Study on a semester calendar requires at least 240 credits to be earned by the student. Normal full-time registration is usually 30 credit hours per semester or 60 credits per academic year.

Professional master's program requires at least 90 credits or 120 credits for master programs designed with focus on science and pedagogy, including research thesis or project. This roughly translates into 14 or 12 courses respectively and a master thesis experience, depending on the student's program of study.

## RISEBA University of Applied Sciences

### Academic Notes

ECTS is applied in RISEBA University of Applied Sciences.

Many courses consist of a full-time semester of study. Exchange students make up their own curriculum by selecting courses up to 30 ECTS. Students can take courses from different years within autumn or spring semesters but note that in that case there can be some overlaps. It is not possible to combine courses from different programs.

All courses include written and/or oral examinations. During one course students will have at least two exams and a final exam at the end of the course. If a student fails an examination, there is the possibility of taking a resit examination later in the semester. The examination re-sit is free of charge for exchange students. Only successfully completed courses are recorded on the student's Transcript of records.

### Grading System

Grading system: ECTS Grade	%	10 grade system	Transcript	Assessment criteria: Knowledge and skills

A	96 – 100	10	With distinction	Knowledge exceeds Standard requirements of the program. A student is involved in independent research and demonstrates deep understanding of an issue.
A	90 – 95	9	Excellent	Knowledge fully meets the requirements of the program; a student is capable of applying the knowledge to real life situations.
B	80 – 89	8	Very good	Knowledge fully meets the requirements of the program, however in some cases a student cannot demonstrate deep understanding of an issue and is not able to apply the knowledge to more complicated situations.
C	70 – 79	7	Good	Knowledge fully meets the requirements of the program, however there are some minor deficiencies in the acquisition of knowledge.
D	60 – 69	6	Almost good	Knowledge fully meets the requirements of the program, however there are some deficiencies in the acquisition of a certain major issues.
E	50 – 59	5	Satisfactory	In general, the program has been acquired, but a student cannot demonstrate a deep understanding of quite a number of major issues.
E	40 – 49	4	Almost satisfactory	In general, the program has been acquired, but a student cannot demonstrate understanding of a quite a number of major issues and is not able to apply the acquired knowledge
FX	26 – 39	3	Bad	A student has a basic understanding of major issues of the subject but cannot apply the knowledge.
F	10 – 25	2	Very bad	A student has a basic understanding of major issues of the subject, but still totally lacks understanding of some of the major areas.
F	1 – 9	1	Very, very bad	No understanding of the subject.

## Stockholm School of Economics in Riga

### Academic Notes

Stockholm School of Economics in Riga uses the ECTS (European Credit Transfer System).

### Grading System

Courses are graded using the 200-point grading system approved at SSE Riga. The grades

are as follows:

Grade	Evaluation	Abbreviation	
160-200	Excellent	Exc	
140-159	Pass with Merit	PWM	
100-139	Pass	P	
0 - 99	Fail	F	
N	Absent	N	
S	Absent	S	Reason of absence illness

In line with the Bologna declaration, SSE Riga uses the ECTS (European Credit Transfer System) grades developed by the European Commission. The ECTS grading system has 5 grades defined as follows:

A	the top 10%
B	the next 25 %
C	the next 30 %
D	the next 25 %
E	the remaining 10%

The SSE Riga 200-point grading system is used internally, e.g., when evaluating student performance, while the ECTS grading system is used for the exchange program evaluation and the Diploma Supplement.

## University of Latvia

### Academic Notes

The academic year begins in September and is over towards the end of June or in the first half of July. As a general rule, it comprises 40 weeks of lectures, seminars and practical work and is mainly divided into 2 semesters. In some faculties students also have to undergo practical training in summer. Students are enrolled on one of various courses offered.

ECTS is applied in University of Latvia.

Bachelor's degree comprises 160-240 ECTS.

Master's degree comprises 60-120 ECTS.

### Grading System

Grade	Meaning	Comments	Estimated corresponding ECTS grade
10	izcili (with distinction)	Knowledge of the student is substantially higher than the estimated normal level.	A
9	teicami (excellent)	Knowledge of the student is higher than the estimated normal level	A

8	loti labi (very good)	Knowledge corresponds to the highest expected level.	B
7	labi (good)	The student has mastered the subject deeply and with understanding, is progressing within the expected limits, but makes minor mistakes.	C
6	gandrīz labi (almost good)	The student has generally succeeded in the course within the required limits, but he or she is either merely reproducing the knowledge rather than actively using it, or making more substantial mistakes.	D
5	viduvēji (satisfactory)	Awarded to students, who are progressing within the limits of their individual abilities, generally are not behind the appropriate age group, but make substantial mistakes and reproduce the facts rather than analyze them.	E
4	gandrīz viduvēji (almost satisfactory)	The very last positive grade. Awarded to students, who do their best but still make grave mistakes and just reproduce most of the relevant material.	E/FX
3-1	neapmierinoši (unsatisfactory)	Marks of different levels for students whose records are below the expected.	Fail

## LEBANON

### Beirut Arab University

#### Academic Notes

Beirut Arab University applies local credit system. Fall and Spring Semesters span a period of 16 weeks including the final exams. Summer Term spans a period of 8 weeks including the final exams.

According to the credit hour system followed at BAU the following workload is assigned per credit hour:

1 Theoretical credit hour. = 1 lecture contact hour /week/ semester (16 weeks including exams)

1 Laboratory credit hour = 2-3 contact hours/ week/ semester (16 weeks including exams)

## LITHUANIA

### Kaunas University of Technology

#### Academic Notes

Kaunas University of Technology uses the ECTS credit system. ECTS credits represent the workload and defined learning outcomes ("what the individual knows understands and is able to do") of a given course or program. 60 credits are the equivalent of a full year of study or work. In a standard academic year, 60 credits would be usually broken down into several smaller components.

A typical "first cycle" (or Bachelor's) Degree, would consist of 180 or 240 credits, whereas a typical "second cycle" (or Master's) Degree, would consist of 90 or 120 credits, with at least 60 credits at second cycle level.

#### Grading System

	Mark	Meaning of the mark	Description of the mark
Passed	10	Excellent	Excellent, exceptional knowledge and abilities
	9	Very good	Solid, good knowledge and abilities
	8	Good	Better than average knowledge and abilities
	7	Average	A average knowledge and abilities, minor mistakes
	6	Satisfactory	Knowledge and abilities (skills) are lower than average, mistakes
	5	Weak	Knowledge and abilities (skills) fulfil minimum requirements
Failed	4, 3, 2, 1	Unsatisfactory	Minimum requirements are not fulfilled

### Mykolas Romeris University

#### Academic Notes

National credits and ECTS credits are equal.

Following the Law on Higher Education and Research of the Republic of Lithuania Lithuanian Higher Education Institutions on 1 September 2011 moved to a new system for calculating the credits - ECTS.

The estimated student work volume is 27 hours per one study credit. The usual length of studies is measured in years. One academic year is 1600 hours.

The usual volume of one year and one semester of full-time studies are 60 and 30 credits, respectively. A student is entitled to choose a different volume of full-time studies; however, it may not be less than 45 credits per year.

## MALAYSIA

## Management and Science University

### Academic Notes

In Malaysia, 40 hours of study time (including studies outside the classroom) is valued as one credit. One completed course most often converts to 5 ECTS credits or 3 US credits. The full semester at MSU is 14 weeks long, with an additional 3 weeks for assessments. Local students generally accomplish 5-6 courses per semester. Exchange students can earn up to 30 ECTS credits per semester.

The conversion of Malaysian credits into ECTS is determined by the relationship between the scope of a local degree program in credits and the time it takes to complete it, set against the European standard attainment of 60 credits per academic year. The University of Helsinki (QS World Ranking place 69), for instance, follows this conversion method. Accordingly,  $136 \text{ (the scope of a Malaysian degree in credits)} / 4 \text{ (the length of the program in years)} = 34 \text{ credits} = \text{local yearly goal}$ .

Dividing the European yearly goal of 60 ECTS by the local yearly goal of 34 credits gives the coefficient of 1,77. The scope of a three-credit course multiplied by the coefficient is thereby 5,3 ECTS.

### Universidad de las Americas Puebla

#### Academic Notes

The credit system at UDLAP is different than most universities. When studying at UDLAP at

the undergraduate level, students are expected to take a minimum of 4 courses (24 units) and a maximum of 5 courses (30 units) per semester. Graduate level students may enroll to 2 courses per trimester.

One ECTS is equivalent to 1 UDLAP credit. All courses are 6 UDLAP academic units (equivalent to 6 ECTS), which include weekly guided instruction (3 hours of in-class studies) and independent study hours for the entire duration of the 16-week semester or 10-week trimester. The total duration of each 6 ECTS course is 48 guided hours.

### International Balkan University

#### Academic Notes

International Balkan University uses the European Credit Transfer and Accumulation System (ECTS) to define a semester credit hour. One credit corresponds to 30 hours of work in a semester.

At IBU the Fall and Spring Semesters include 12 weeks of instruction each.

The actual amount of academic work that goes into a single semester credit hour is often calculated as follows, in relation to astronomical hours:

- One credit hour represents 45 minutes of scheduled class time per week. Hence, one credit hour is equivalent to at least 9 hours of class time per semester.
- Most courses are awarded 5 credit hours. This represents 225 minutes of scheduled class time per week and a total of 45 hours of class time over a semester.

A typical bachelor's degree Program of Study on a semester calendar requires at least 240 credits. Normal full-time registration is usually 30 credit hours per semester or 60 credit hours per academic year.

A typical master's program requires at least 60 credit hours.

## PERU

### Peruvian University of Applied Sciences (UPC)

#### Academic Notes

Academic credit is a measure of the training time required of students to achieve theoretical and practical learning. It is equivalent to a minimum of 16 teaching hours of theory or twice as many hours of practice.

Class time: it is all programmed activity that the student executes, in interaction and/or supervision face-to-face or virtual with the teacher, whose purpose is to develop learning aligned with the competencies proposed in the Program graduate profile.

The UPC defines an equivalence between the credits of the courses taken at the UPC and the credits of the European Credit Transfer and Accumulation System (ECTS), both for the Undergraduate as of the Postgraduate:

200 credits per plan

Undergraduate study (10 semesters – 2 per year) = 20 credits per semester

## PORTUGAL

### ISCTE Business School

### Academic Notes

The official Transcripts of Records are issued by the International Relations Office both in Portuguese and ECTS scale. ECTS is based on a full student workload and not limited to contact hours only. ECTS credits are a relative rather than an absolute measure of student workload. They only specify how much of a year's workload a course unit represents at the institution or department allocating the credits.

In ECTS, 60 credits represent the workload of an academic year of study and normally 30 credits for a semester and 20 credits for a term. ECTS credits ensure that the program will be reasonable in terms of workload for the period of study abroad.

### Grading System

ECTS Scale	Definition	% of Successful Students Normally Achieving the Grade
A	Excellent - outstanding performance with only minor errors	Best 10%
B	Very good - above the average standard but with some errors	Next 25%
C	Good - generally sound work with a number of notable errors	Next 30%
D	Satisfactory- fair but with significant shortcomings	Next 25%
E	Sufficient - performance meets the minimum criteria	Next 10%
FX	Fail - some more work required before the credit can be awarded	-
F	Fail - considerable further work is required	-

Under the Portuguese system grades are given on a scale from 0 to 20, the minimum passing grade being 10.

## ROMANIA

### Romanian-American University

#### Academic Notes

Romanian-American University uses the European Credit Transfer and Accumulation System (ECTS) to define a semester credit points. One credit point represents 25 hours of workload per semester (including scheduled classes and individual study).

60 ECTS represent the equivalent of the average workload corresponding to an academic year, and 30 ECTS represent a semester of study.

Fall and Spring Semesters include 14 weeks of instruction.

A typical bachelor's degree study program requires 180 ECTS. One semester requires 30 ECTS to be earned by the student.

A typical master's degree study program requires 120 ECTS. One semester requires 30 ECTS.

## **SNSPA (National University of Political Studies and Public Administration)**

### **Academic Notes**

Bachelor studies presuppose 180-240 credit points, calculated in accordance with the European Credit Transfer Systems (ECTS). MA/MSc/MEng studies presuppose 90-120 credit points, calculated in accordance with the European Credit Transfer Systems (ECTS). Exceptionally, depending on the duration of the bachelor studies, the lower ECTS limit can be 60 transferable credits.

One credit corresponds to 25 hours of class time. Credit hours may vary depending on the course. 8 credits may be equal to 200 hours (56 hours of courses and seminars, 144 hours of individual study). Credit requirement for bachelor and master programs is 30 credits per semester.

### **Grading System**

Grading scale is 1-10, all grades being integers. The passing grade is 5 and the highest grade is 10.

## **RUSSIA**

### **Innopolis University**

### **Academic Notes**

ECTS credit system is applied at Innopolis University

The average workload of the bachelor's and master's students of Innopolis University is around 25-30 Credits per semester. However, the total number of credits for the exchange students per semester depends on how many subjects and which subjects they are going to take. The courses are assigned 2-6 credits. Therefore, the number of credits for the exchange students can get as low as approximately 12-15 Credits (if an exchange student decides to take 2-3 subjects in the exchange semester) or up to 35-40 Credits (if an exchange student decides to truly immerse himself/herself into studies).

**ITMO (Information Technologies, Mechanics and Optics) University****Academic Notes**

ITMO University employs European Credit Transfer and Accumulation System. ECTS credits are a standard means for comparing the volume of learning based on the defined learning outcomes and their associated workload. For successfully completed studies, ECTS credits are awarded.

1 ECTS credit point equals to 36 academic hours:

- 12-16 in-class academic hours (lectures and seminars)
- 20-24 academic hours (project work, internships and students' individual study)

One semester corresponds to 30 ECTS credits. 240 ECTS credits are required for completion of Bachelor's programs and 120 ECTS credits are required for Master's programs.

**Grading System**

## **Saint Petersburg State University**

### **Academic Notes**

The average workload for exchange students is 20 academic hours (10 classes) per week (30 ECTS credits per semester).

Students can optionally take a free Russian language course for foreign students during the whole exchange period (8 academic hours per week). If chosen, Russian language course is included into the academic workload for students.

Full-time Russian language course for foreign students (20 academic hours per week) is also available at any level of Russian language proficiency. Philology should be chosen as the field of studies in this case.

### **Grading System**

The following grading scale is used in Russia's schools and universities:

Pass/No pass

- 5 = Excellent
- 4 = Good
- 3 = Satisfactory
- 2 = Unsatisfactory

The students who got a 2 ("unsatisfactory") or a "not passed" at an examination session are entitled to resit the failed examination or pass/fail test twice. Those students who failed to pass examinations and/or pass/fail tests in three or more subjects will be expelled.

## **SWITZERLAND**

### **University of Basel**

#### **Academic Notes**

The Credit System of the University of Basel is in line with the European Credit Transfer and Accumulation System which means that 1 ECTS corresponds to 30 hours of work. Work here means presence in class as well as preparation for class, exam etc. ECTS are only credited when the required tasks are successfully fulfilled.

How many ECTS are awarded for each lecture or seminar depends on the task required. Most lectures from the faculty of law and economics are credited with 6 ECTS while in other faculties, 3 or 5 ECTS are more common. Furthermore, there are seminars in which no final exam takes places. The grading of those seminars is therefore pass/fail. The University of Basel's academic year is split into a Spring and an Autumn semester with 14 weeks of lectures respectively. The free time between semesters is often used for writing seminar papers.

During one full-time semester, students should acquire 30 ECTS. As students at the Institute for European Global Studies attend lectures from different faculties, the amount of lectures each student enrolls for vary.

BA-degree at the University of Basel requires 180ECTS, MA-degree 90-120 ECTS. The MA in European Global Studies requires 120 ECTS. As one full time semester is made up of 30 ECTS, a BA-degree should be acquired within 6 semesters, the MA in European Global Studies within 4 semesters.

#### **Grading System**

6	Excellent
5.5	Very good
5	Good
4.5	Satisfactory
4	Pass
3.5	Fail

Depending on the faculty, grades are given in half grades (0.5) or decimal grades (0.1).

## University of Geneva

### Academic Notes

The UNIGE courses are organized according to the European Credit Transfer System (ECTS).

Basic training consists of two study programs:

- the university bachelor's degree equivalent to 180 ECTS credits.
- the master's degree (master) equivalent to 90 or 120 ECTS credits depending on the case.

1 semester = 30 ECTS credits

1 academic year = 60 ECTS credits

1 ECTS credit represents approximately 25-30 academic hours (including studying).

Faculty of Letters: all courses are valued 4 ECTS

## THE CZECH REPUBLIC

### CEVRO Institute

### Academic Notes

Study in bachelor's and master's degree programs is carried out in accordance with the principles of the European credit transfer system (European Credit Transfer and Accumulation System, hereafter "ECTS"). One credit corresponds to 28 hours of workload for an average student. In face-to face mode of delivery 60 % of workload falls on participation in classes and 40 % of workload falls on self-study.

A student receives credits for the successful completion or in recognition of fulfilled study obligations. Students must obtain 180 credits for a bachelor's degree and 120 credits for a master's degree in accordance with the structure of the required study plan.

#### Grading system

100 - 91%	<b>A</b> - EXCELLENT – outstanding performance with only minor errors
90-81%	<b>B</b> - VERY GOOD – above the average standard but with some errors
80-71%	<b>C</b> - GOOD – generally sound work with a number of notable errors
70-61%	<b>D</b> - SATISFACTORY – fair but with significant shortcomings
60-50%	<b>E</b> - SUFFICIENT – performance meets the minimum criteria
less than 50 %	<b>FAIL</b> – considerable further work is required

### Masaryk University

#### Academic Notes

At Masaryk University, the ECTS grading system is used. The number of ECTS credits for each course reflects the total number of hours a student is expected to devote to the course per week (in the form of lectures, homework, reading, essays, consultations, etc.). 1 ECTS equals 25-30 hours. It is the same both for bachelor and master's degree programs.

60 ECTS represents the workload required for one year's full-time study, or 30 ECTS/semester. For international exchange students the requirement is 20 ECTS/semester.

#### Grading System

1. Courses with the type of completion „zk“(zkouška – examination) or „kz“(klasifikovaný zápočet – graded credit)

Grade Designation	Grade	Value (former local scale)
Excellent	A	1
Very Good	B	1,5
Good	C	2
Satisfactory	D	2,5
Sufficient	E	3
Failed	F/X	4

The symbol \* and – have the same weight as the grade F and stand for “requirements not fulfilled; course not evaluated”

Grade “X” is equal to grade “F” corresponding to “requirements of in-term assessment or requirements stipulated during the course not fulfilled”.

## 2. Courses with the type of completion „k“ (kolokvium – colloquium)

Grade designation	Grade	Recommended equivalent grade for recognition at home institution
Requirements fulfilled	P	Pass or A
Requirements not fulfilled	N	Fail or F

The symbol \* and – have the same weight as the grade F and stand for “requirements not fulfilled; course not evaluated”

## 3. Courses with the type of completion “z” (zápočet – credit)

Grade designation	Grade	Recommended equivalent grade for recognition at home institution
Requirements fulfilled	Z	Pass or A
Requirements not fulfilled	N	Fail or F

## Prague University of Economics and Business

### Academic Notes

Incoming students need to obtain at least 15 ECTS credits in a semester. To pass a course, student has to receive at least 60% of the maximum score, if not defined in a more specific way. 30 ECTS credits per semester (4-6 courses) are considered to be the regular workload for a student.

1 ECTS credit corresponds to 26 hours of workload altogether, including participation in lectures, attendance at seminars/workshops/tutorials, preparation for seminars/workshops/tutorials, preparation of term paper(s), preparation of presentations, preparation for final test.

### Grading System

## University of Finance and Administration

### Academic Notes

All students of the University of Finance and Administration bachelor's and master's degree programs study in a credit system conforming to the European Credit Transfer and Accumulation System (hereinafter "ECTS"). Credits are defined as a quantitative expression of the study burden of a certain part of a student's studies. Under the ECTS, one credit generally corresponds to 25 to 30 hours of study. The standard number of credits for a three-year bachelor's degree program is 180 credits and for a two-year master's degree program 120 credits (i.e. 60 credits per academic year and 30 credits per semester).

### Grading System

## THE REPUBLIC OF KOREA

### Chung-Ang University

#### Academic Notes

Local credit system is applied at Chung-Ang University. The conversion to ECTS is as follows:  
1 ECTS = 0.6 CAU Credits. Normally 1 course (for 1 semester) = 3 CAU credits.

Class time: 50 min or 75 min

50 min × 3 classes per week or 75 min × 2 classes per week for three (3) credit courses

50 min × 2 classes per week for two (2) credit courses

Semester credit hours for bachelor and master's degree programs:

3-19 credits per semester (Undergraduate)

All Exchange students can register for courses within the maximum and minimum limits but should firstly consult and gain permission on the required course load from their home university's coordinator.

3-9 credits per semester (Graduate), additional 6 credits of undergraduate courses are allowed. Graduate level students can additionally take 6 undergraduate credits from the College of General Education. (Not allowed to take undergraduate courses provided by regular undergraduate major program.)

Students should confirm the minimum course load they are required to take with their home university.

### INHA University

#### Academic Notes

Undergraduate students are allowed to get total of 18-19 credits per semester while graduate school students are allowed to take maximum 9 credits per semester. Therefore, 18-19 undergraduate credits and 9 graduate school credits are considered as 30 ECTS equivalent.

At the undergraduate level, 1 credit hour usually involves 15 classroom hours.

One credit consists of 16 in-class contact hours (with one contact hour totaling 50 minutes of a regular course or 100 minutes of a lab course) over a period of no less than two weeks. A regular semester (Spring: From March - June, Fall: September - December) lasts 16 weeks.

A student in a single class with 3 HUFS credits will have enrolled in 48 hours of class time. A student enrolled in recommended 12 credits per semester will have enrolled in 192 hours of time spent in class. This does not include any study work spent outside of the lecture/lab period.

18 HUFS credits are the very maximum credit limit for exchange and visiting students to take during one semester. Graduate exchange and visiting students can take a maximum of 12 HUFS credits in graduate-level classes. Due to the nature of adjusting to a new academic environment, exchange and visiting students are usually recommended to take 12 HUFS credits a semester, with a minimum of 9 HUFS credits.

Students solely enrolled in the intensive Korean language program are not required to take regular semester courses but can take up to a maximum of 9 HUFS credits. The intensive Korean language program does not offer HUFS credits, but rather offers 200 hours of language instruction.

**KAIST (Korea Advanced Institute of Science and Technology)****Academic Notes**

Course units are either credits or AU (Activity Units). Credits are divided into subject credits and research credits. 1 credit is given for a lecture of one hour per week for one semester or the equivalent number of education hours. However, for laboratory practice 1 credit is given for three hours per week for one semester of education or the equivalent number of education hours. 1 credit corresponds to 16 hours.

In principle, seminar credit will be granted 1 credit per semester. Depending on the requirement of each department (major), up to 2 credits may be granted. Each department (major) will determine the assigned number of hours per week for seminars.

AU is the activities for completing physical education and community service not included in graduation credit. 1AU is given for one hour a week for one semester or an activity of the equivalent number of hours.

Semester credit hours for bachelor programs is 12-24 credits, and for master programs 9-12 credits.

### Woosong University

#### Academic Notes

Woosong University is on a 15-week Semester system for Spring and Fall. Summer and Winter sessions are available ranging from 3-5 weeks, which start immediately after the end of the semester.

One credit is 1 contact hour. This can vary slightly for special circumstances and for lab courses. For example, a lab or special situation class can have 3 credits / 5 hours. Even though it is a 3-credit class, the actual contact time is longer. Labs and special situations can extend by 80% in contact time for every credit. But it is not common except for lab courses. 1 credit hour is actually 50 minutes for courses on campus with contact time. (10 min break time allowed).

As of 2025, graduation requirements have changed from 132 to 126 credits for undergraduates. For a master's degree, it is between 24 ~ 30 credits depending on program and thesis-option.

#### Grading System

Woosong University, like many Korean universities, uses a 4.5 grading scale. (many American universities use 4.0 scale)

## THE UNITED KINGDOM

### Aberystwyth University

#### Academic Notes

UK Credits are the same at a nominal 10 hours of learning per credit unit across CATS, the Scottish Credit and Qualifications Framework (covering higher and further education, vocational education and school qualifications in Scotland), the Credit and Qualifications Framework for Wales (ditto for Wales) and the Regulated Qualifications Framework (further education and vocational education in England and Northern Ireland and school qualifications in England).

There is an official equivalence with the European Credit Transfer and Accumulation System (ECTS) where two UK credits equals one ECTS credit, based on there being 120 UK credits to an academic year and ECTS credits being defined as 60 in an academic year.

The UK Bachelor's degree is usually studied over a period 3 years in which they will accumulate 360 CATS credits at Levels 1, 2 and 3. Some students in the sciences may study for an additional year, at Level M, in order to obtain an undergraduate Masters degree (e.g. MEng, MPhys, MMath, ..) that consist of a total of 480 CATS credits and are recognized as appropriate research training for these subject areas.

Master's Degrees in the UK are usually 12 months full-time, 2-year part-time or 3-year distance-learning programs. These may be specialist courses leading on from a Bachelor's degree in that subject area; Research Training or Research Preparation Masters that specifically prepare students for PhD; or conversion courses that condense the essential elements of final 2-years of a Bachelor's degree and a Masters dissertation into a 12-month period. All taught master's programs and consist of 180 CATS Credits.

180 CATS credits = 90 ECTS credits

#### Grading System

Third [III]	40% to 49%	6.20%

## University of Glasgow

### Academic Notes

1 Glasgow credit is equivalent to 10 notional learning hours. A 10-credit class is therefore equivalent to 100 notional learning hours. 1 ECTS is deemed equivalent to 2 SCQF (Scottish Credit and Qualifications Framework) credits.

There is not a fixed class time relative to credit value. Notional learning hours include face-to-face teaching as well as independent study. Generally, classes in the Arts and Social Sciences will involve much less class time (e.g. a 20 credit class may meet once a week for two hours across our 11-week semester). Classes in Life Sciences, Science and Engineering may involve more face-to-face class time due to prolonged lab sessions (e.g. a 20 credit class may meet three times a week for a one-hour lecture, plus a 3-hour lab once a week).

A normal course load is 60 Glasgow credits per semester and 120 across the full academic year. The minimum requirement for awarding an ordinary degree is for a student to have undertaken 360 credits; and for award of an Honor's degree, the student must have undertaken 480 credits.

### Grading System

E	Weak	E1 E2 E3	8 7 6	Attainment deficient in respect of specific intended learning outcomes, with mixed evidence as to the depth of knowledge and weak deployment of arguments or deficient manipulations	Fail
F	Poor	F1 F2 F3	5 4 3	Attainment of intended learning outcomes appreciably deficient in critical respects, lacking secure basis in relevant factual and analytical dimensions	
G	Very poor	G1 G2	2 1	Attainment of intended learning outcomes markedly deficient in respect of nearly all intended learning outcomes, with irrelevant use of materials and incomplete and flawed explanation	
H			0	No convincing evidence of attainment of intended learning outcomes, such treatment of the subject as is in evidence being directionless and fragmentary	
CR	Credit Refused			Failure to comply, in the absence of good cause, with the published requirements of the course or program; and/or a serious breach of regulations	

University of Glasgow work to a 22-point scale and do not use bell curves or comparative marking – each student's work is judged on its own merit.

**THE UNITED STATES OF AMERICA****American University****Academic Notes**

American University uses the Carnegie Classification definition of a credit hour. A credit hour is defined as at least 12.5 hours of direct instruction (in class or remote sites) with at least 25 hours of student work outside of that direct instruction, usually spread over 15 weeks, or the equivalent amount of work over a different amount of time. Most classes are awarded 3 credit hours.

Abroad at AU students are required to take a full load of at least 12 credits. Students typically take between 12-15 credit hours which generally equates to 4-5 classes. Students are allowed to take as many as 17 credits.

**Grading System**

**Michigan State University****Academic Notes**

The University offers instruction throughout the year during the fall semester, spring semester and summer sessions.

Credits Effective Fall 1992 courses at Michigan State University are offered on a semester basis. One credit is equivalent to one instructor-student contact hour per week per semester plus two hours of study per contact hour; OR two hours of laboratory contact hours per week per semester, plus one additional hour spent in report writing and study; or other combinations of contact and study hours which constitute an equivalent of these experiences.

**Grading System**

The minimum cumulative grade-point average required for graduation is a 2.0 for undergraduate students and 3.0 for graduate students.

The Numerical System: 4.0, 3.5, 3.0, 2.5, 2.0, 1.5, 1.0, 0.0 – Credit is awarded for the following minimum levels – 1.0 for undergraduate students and 2.0 for graduate students. However, all grades are counted in the calculation of the grade-point average.

The Credit-No Credit System: CR-CREDIT – Credit was granted and represents a level of performance equivalent to or above the grade-point average required for graduation.

NC-NO CREDIT – No credit was granted and represents a level of performance below the grade-point average required for graduation.

The Pass-No Grade System: P-PASS – Credit was granted, and the student achieved a level of performance judged to be satisfactory by the instructor.

N-NO GRADE – No credit was granted, and the student did not achieve a level of performance judged satisfactory by the instructor.

Note: ADA University refers to numerical system while transferring the courses.

## **Oklahoma State University**

### **Academic Notes**

A semester credit hour is equivalent to:

- sixteen 50-minute class sessions (including examinations) conducted under the guidance of a qualified instructor plus 32 hours of preparation time, or
- sixteen 3-hour laboratory sessions, or
- sixteen 2-hour laboratory sessions plus 16 hours of preparation time.

In a regular 16-week Fall or Spring semester, the maximum enrollment for undergraduates without special approval is 19 credit hours. Enrollment in 20 to 24 credit hours results in academic overload, which requires a Petition for Excessive Hours.

### **Grading System**

Grade	Interpretation	Grade Point
Grade "A"	Excellent	4.00
Grade "B"	Good	3.00
Grade "C"	Passing	2.00
Grade "D"	No Graduate Degree Credit	1.00

## Texas A&M International University

### Academic Notes

TAMIU uses the American Credits -Semester credit hours (SCH) system. Credit Hours (SCH) -the semester hour is the unit of credit and is defined as the amount of credit given for one recitation hour a week for one semester. Each recitation hour requires two hours of preparation on the part of the average student. Three hours of carefully planned and supervised laboratory work are equivalent to one hour of lecture or recitation.

The normal semester load is fifteen 15 hours for an undergraduate student and 9 hours for a graduate student.

### Grading System

## The University of Tulsa

### Academic Notes

U.S. university courses are measured by the number of hours per week that a class meets. A one-credit-hour course meets one hour per week for about 15 weeks (full semester).

Most university courses are three credits (three hours in class per week for 15 weeks). This does not include time outside of class doing homework or projects. Usually, a student should plan to spend two hours per week studying outside of class for each hour in class. For example, a three-credit-hour class will meet with the professor three hours per week, and students will need to spend about six hours per week doing homework and studying for that class.

Undergraduate students are classified based on the number of credit hours completed as follows:

Freshman: 0 - 29 credit hours completed

Sophomore: 30 - 59 credit hours completed

Junior: 60 - 89 credit hours completed

Senior: 90+ credit hours completed

### Grading System

Letter Grade	Grade Points	Percentage	Grade Name

A	4.0	90 – 100	Superior
B	3.0	80 – 89	Above average
C	2.0	70 – 79	Average
D	1.0	60 – 69	Below average
F	0.0	00 – 59	Failure

## University of Central Florida

### Academic Notes

University of Florida uses US credit system. 1 credit hour corresponds to 15 hours. Class time of one credit hour is 1 hour 15 minutes per week.

Semester credit hours for bachelor and master's degree programs is as follows:

BA/BS = 12 credit hours (120 credit hours to graduate), Graduate = 9 credit hours (total credit hours in graduate programs vary, public administration program is 42 and nonprofit program is 36 credit hours).

## University of Houston

### Academic Notes

The University of Houston uses the U.S. Semester Calendar Credit Hours to define a semester credit hour. 1 credit corresponds to 1 hour per week of scheduled class time, for a total of 15 contact hours, or 15 hours of class time in a semester. Most courses are awarded 3 credit hours, which represents 45 hours of class time over a semester. Fall and spring semesters include 15 weeks of instruction.

A typical bachelor's degree program on a semester calendar requires a minimum of 120 credit hours to be earned by the student. This roughly translates into 40 courses, depending on the student's program of study. Normal full-time registration is a minimum of 12 credit hours per semester, though students may take up to 18 credit hours.

A typical master's degree program on a semester calendar requires between 24 to 36 credit hours to be earned by the student. This roughly translates into a minimum of 8 to 12 courses,

depending on the student's program of study. Normal full-time registration for graduate students is a minimum of 9 credit hours per semester, though students may enroll in up to 15 credit hours.

### University of Mary Washington

#### Academic Notes

UMW uses the standards articulated in the Code of Federal Regulations (CFR), 34 § 600.2 to define a semester credit hour. At UMW, 1 credit hour corresponds to:

1. Not less than one hour of classroom or direct faculty instruction and a minimum of two hours out of class student work each week for approximately 15 weeks for one semester, or
2. At least an equivalent amount of work as required in item 1 above for other academic activities as established by the institution including laboratory work, internships, practica, studio work, and other academic work leading to the award of credit hours.

For a typical 3 credit course, a student spends three hours per week in class and should do six hours per week of homework.

UMW operates on a semester system (Fall and Spring). A semester consists of 14 weeks of instruction, one week of vacation, and one week devoted to final exams, for a total of 16 weeks.

A bachelor's degree requires 120 credits for completion. Normal full-time registration is usually 15 credit hours per semester, or 30 credit hours per academic year.

**Istanbul Bilgi University****Academic Notes**

The ECTS credit load for courses at İstanbul Bilgi University has been determined by keeping the “student workload” in mind. Programs have been designed in accordance with an annual workload of 60 ECTS. The calculation of the workload of a course is done by taking into consideration the total number of course activities done in a term and the required hours to complete them. Some of the activities are as follows: Lecture class hours, lab work, project design, project presentations, field work, discussion, problem solving, internships, exams, preparation time for other evaluation activities, etc.

Since the value of 1 ECTS credit is 25,5 hours at İstanbul Bilgi University, the student workload for one academic year is 1.530 hours.

#### Course Load, ECTS (European Credit Transfer System) & KU credits

Course load indicates how many credits you take per semester. KU students usually take five courses per semester (for an average of 15 KU credits which is equal to 30 ECTS). 3 credit hours correspond to three hours of lecture time in a given week. Class time of one credit hour is 0,3 hours of lecture time in a week.

Although there is no requirement for exchange students, at least three courses are recommended. It is up to home institution to approve the course load.

On average bachelor programs' semester credits hours are 15 KU credits. However, this varies among programs. The minimum for master's programs is 21 credits throughout the length of the program. However, some programs may require more credit hours.

## Middle East Technical University

## Academic Notes

The credit value of a course consists of all of its weekly theoretical course hours plus half the weekly hours of laboratory, workshop, studio, practicum and other similar work related to that course. For example, course credit (2-2)3 refers to "(theoretical course hour-laboratory hour) course credit". Course with (3-0)3 credit includes 3 hours of theoretical course, 0 (zero) hours of laboratory, and 3 course credits.

In calculation of course credit with (1-4)3;

- theoretical hour is taken as it is = > 1
- half of the laboratory hour is taken = > 2
- course credit = > 1+2 is found 3

The minimum total ECTS credits required to graduate from associate degree, undergraduate and graduate programs are as follows:

Associate degree programs (Industrial Electronic Program) 120 ECTS;

Undergraduate programs 240 ECTS;

International Joint Degree programs;

Global and International Affair and Business Administration 120 ECTS;

English Language Teaching 180 ECTS;

### Özyeğin University

#### Academic Notes

Credits of courses offered are determined under the European Credit Transfer and Accumulation System (ECTS), and the course load and academic performance are calculated based on ECTS credits. 1 ECTS credit is equal to 25-30 hours of student workload per semester. A "semester" at OzU means a period of approximately sixteen consecutive weeks during which there are at least fourteen weeks of lecture.

- 2-3 ECTS: Usually 2 hours of class time per week
- 4-5 ECTS: Usually 3 hours of class time per week
- 6 ECTS and above: Usually 4 hours of class time per week

Semester credit hours for bachelor's and master's degree programs is 30 ECTS per semester for both bachelor's and master's.

### Grading System

Grades are assigned among students with a passing grade as follows:

Grade A - 10%

Grade B - 25%

Grade C - 30%

Grade D - 25%

Grade E - 10%

Grade	Coefficient	ECTS Grade
A	4	
A-	3.7	A

The lowest passing grade is 'D' for undergraduate courses and 'C' for graduate courses.		

### Sabancı University

#### Academic Notes

At Sabancı University, the credit value of an undergraduate and/or a graduate course is the sum of 1.0 times the weekly course hours plus 0.5 times of weekly application hours. The credit values of undergraduate courses and non-credit courses are determined by the Faculty Administrative Board whereas the credit values of the graduate courses are determined by the Graduate School Administrative Board.

On the other hand, ECTS credit of a course is calculated based on the total work such as lectures, seminars, self-studies, practicum, etc. that is necessary to complete that course in accordance with the total amount involved.

Both credit systems are used at Sabancı University.

## **Yasar University**

### Academic Notes

The national credit system is based on contact hours (i.e. theoretical or practical hours per week). 1.0 credit stands for each hour of lecture a week and 0.5 credit stands for each hour of laboratory or practical a week. Both local credit and ECTS are reflected on official transcript of records.

A typical bachelor's degree study program requires 240-360 ECTS. Master programs without thesis require 60 to 90 ECTS credits and consist of courses and a semester project. 60 ECTS non-thesis master programs are exceptional and exist in a few disciplines. The master

programs with a thesis require 90 to 120 ECTS credits, which consists of courses, a seminar, and a thesis.
